UCSF Faculty Use Shakespeare to Analyze Moral Issues

Howl, howl, howl! O, you are men of stones. Had I your tongues and eyes, I'd use them so that heaven's vault should crack. She's gone for ever.

The words are by Shakespeare. The character is the tragic King Lear, holding in his arms his dying daughter, Cordelia. Few people would think that Shakespeare would have much to say about the role of the health professional. But he does; and so do Camus and Tolstoy. And 20 UCSF faculty soon will find that out when they attend a special two-day program on campus Friday and Saturday, June 19 and 20.

Called "Literary Texts, Humanistic Values and Health Care Professionals," this full, two-day program is through Brandeis University and brings to UCSF four humanists to discuss Shakespeare's *King Lear*, Camus' *The Guest* and Tolstoy's *The Death of Ivan Ilyich*. The program is sponsored by Academic Services, part of the Office of the Senior Vice Chancellor for Academic Affairs and cosponsored by all of the dean's offices. It is part of the Academic Affairs' campuswide faculty development program.

During the seminars, our faculty will be able to construct parallels between the characters of these major literary works and their own professional lives. They will discuss complex moral and social issues as they affect their work, and will share their feelings on such major themes as judgement, ethical conflict and human choice.

Speaking from Brandeis will be Sanford M. Lottor, administrative director of humanities and the professions; Saul Touster, director, legal studies program and cofounder of the humanities program; Robert Szulkin, chair, Germanic and Slavic languages; and from the Massachusetts Institute of Technology, Irene Tayler, professor of literature.

There will be five UCSF faculty members from each of the four professional schools participating in the program.

The program uses texts that are less than 100 pages long, to allow the professionals to read them in advance of the session. Assistant Vice Chancellor Keith Wilson, coordinator of the campus faculty development program, said he thinks the seminars will be fascinating because the faculty really will be working from two texts—the literary, and the text that is the faculty's own experience in health care.

Gold-Headed Cane winner Robert Gaskie (right) shares the spotlight with runners-up Jose Maria Miramontes and Prosper Benhaim.

Gold-Headed Cane to Gaskie, Teaching Awards to 18

Robert S. Gaskie, MD, of Cloverdale, CA, received the celebrated Gold-Headed Cane award at the School of Medicine commencement for 146 students on May 30. Runners-up for the award were Prosper Benhaim of Encino and Jose Maria Miramontes of Brawley.

The Gold-Headed Cane is the highest honor a graduating medical student can receive. All three nominees for the award were inducted into the distinguished Gold-Headed Cane Society the evening prior to commencement.

A 1980 BS graduate in chemistry from Sonoma State, Gaskie plans to do his residency in the UCSF program in family practice at the Community Hospital in Santa Rosa.

The medical graduates chose 11 faculty to receive "Excellence in Teaching Awards": Diane S. Colby, assistant professor, biochemistry/biophysics; Jack DeGroot, professor, anatomy and radiology; Carol J. Jessop, assistant professor, medicine; Warren E. Levinson, professor, microbiology; William Margaretten, professor, pathology; Dace B. Mitchell, professor, medicine; Carlos Pellegrini, associate professor, surgery; Henry J. Ralston, III, professor and chair, anatomy; Sexton D. Sutherland, lecturer, anatomy; Lawrence M. Tierney, Jr. and Kenneth A. Woeber, professors, medicine.

Eight residents were chosen as outstanding house officers: Kevin L. Grumbach, family and community medicine; Steven Hirschfeld, pediatrics; Harlan M. Krumholz, medicine; Gregory P. MacDonald, neurology; Leigh A. Neumayer, surgery; Chapman Olive, surgery; Deanna K. Siliciano, anesthesia; Pablo Stewart, psychiatry; and Cheryl A.K. Walker, ob/gyn.

Four faculty were honored with the 1987 Kaiser Award for Excellence in Teaching: Linda D. Ferrell, assistant professor, pathology (basic science); Greg Fitz, assistant professor, medicine (full-time clinical); Pablo Stewart, clinical instructor, psychiatry (volunteer clinical); and Robert Keith Knopp, associate clinical professor, family, community medicine and medicine (Fresno).

Because of an unusually strong group of nominees, three faculty were chosen to receive Kaiser Award honorable mentions: Sexton D. Sutherland, lecturer, anatomy; Frank R. Sharp, associate professor, neurology; and Leonard Gordon, assistant clinical professor, anatomy.

Three medical students also received Academic Excellence Awards from the Alumni/Faculty Association during homecoming on May 16. They are: John Bosetti, Caroline Hellings and Steven Pearson.

Some Trashy Winners

Mikkel Aaland

Our annual Leake Day celebration began ordinarily enough with a trash bag race around campus ending up with our overall winners—the "UC Street Sweeps" starring none other than Millberry Union's Dwayne Thomas (peeking around the corner of the picture), Karen Attix, Steve Grossman and Melba Perez. First in costume design with their garbage can drag were Nursing Administration's "Can-Can Girls of Nursing." Best time went to GSA's "Floral Hygiene."

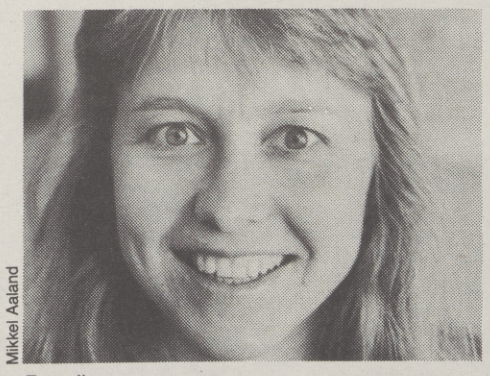

Watch Your Step! Major Construction on the Way

Starting later this June, all kinds of construction activity will begin. Sidewalks will be torn up, departments relocated, and buildings moved, torn down or renovated.

Many of the projects, including the installation beginning late June of a new steam line from the west side of Moffitt Circle to the east side of Fourth Avenue, will have a major impact on Parnassus parking, drop-off, bus and shuttle stops and other traffic flow.

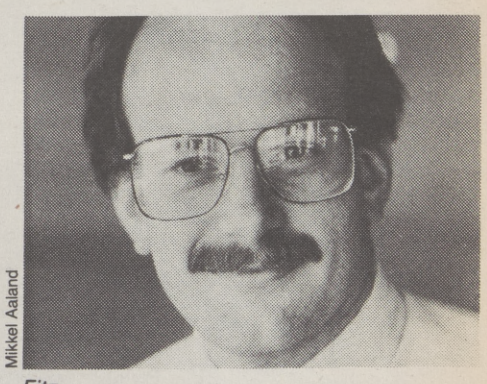

To help you know what to expect, News & Public Information Services is producing a large map, suitable for posting, indicating major construction activity coming up. This map also will include the impact of the various construction projects and how to live with all of it.

The map is scheduled for completion and distribution sometime in June. Look for it in your next issue of *Newsbreak* along with regular construction updates.

EMPACT Invites You to Great America

This summer EMPACT — the new employee activities club — is subsidizing two adventuresome and entertaining weekends at Great America in Santa Clara. UCSF Days at Great America will be Saturday and Sunday, July 11 and 12, and again on July 18 and 19. For each of these four days, UCSF employees are invited to purchase general admission tickets for less — adult tickets for $9.75 ($8.75 plus $1 handling) instead of $14.95; and children's tickets for $7.25. Children two years or under are admitted free. Tickets are on sale now at the Millberry Union Central Desk, or call x62571 for ticket information.

What can you do at Great America? Thrill-seekers can ride the wild "Revolution," a pendulum-like ship that swings 360 degrees; or explore the saga of man's quest to go fast in "Speed," shown on a 70x96 foot screen. Children will find creative fun in Smurf Woods, the Saltwater Circus and the Puppet Tree Theatre. The Grand Music Hall's "Gotta Dance" has something for everybody. There are 31 restaurants, 31 rides, 27 shops, 4 arcades, 30 games and a recording studio. There also are two big concerts billed, the Oak Ridge Boys on the 12th and Kansas on the 19th (for $5 extra). Get the picture?

For more information on this event or other summer activities, including the UCSF "Afternoon at the (Horse) Races" on Saturday, June 27, called EMPACT at x66932.

Five Up for Bowl of Hygeia at Pharmacy Commencement June 20

One hundred and ten students will receive PharmD degrees during the School of Pharmacy's commencement exercises on Saturday, June 20, beginning at 1 p.m. at Herbst Theater, San Francisco Civic Center.

The School of Pharmacy's top award, the Bowl of Hygeia, will be presented to one of five graduates, all from California: Brad Colwell of Santa Ana, Kathleen Graham of Walnut Creek, David Hickman of Orinda, Pamela Salas of Placentia, or Jo Wallin of Los Alamitos.

The recipient will be the senior pharmacy student who, in the estimation of instructors and fellow students, best demonstrates the qualities of the ideal pharmacist.

Leslie Z. Benet, PhD, professor and chair of the Department of Pharmacy, will deliver the commencement address, entitled "AIDS, Animals, Toxicology and the Revolutionary Pharmacist."

Alumni speaker will be Julian Weiss, '43, new president of the UC Pharmacy Alumni Association, who is vice president, pharmaceutical operations, Kaiser Permanente.

For the first time ever, the School will have an honorary marshall—Ernest L. Prien, '34. A major contributor to the School, Prien is chair emeritus of Synergex Corporation.

Millberry, Kezar Parking Rates Up

Parking permit holders are reminded that parking application forms are due in the Parking Operations Office no later than Friday, June 19. Parking permit rates have gone up in order to meet operating costs, to plan for additional parking facilities and complete improvements at the 17th and Folsom lot. The 1987-88 rates are listed below:

Permit	*Monthly Fee*	*Yearly Fee*
A	$42	$504
ALH	42	504
AP (pool)	42	504
B	21	252
CED	32.50	390
G	42	504
GLH	42	504
GP (pool)	42	504
L	4.25	51
Motorcycle	10.50	126
N	17.25	207
RA	10.50	126
RL	16.25	195

Why not pay for your parking through monthly payroll deduction? You can do that for any of the above permits except L. Visit the Parking Office in Room 16, Millberry Union, or call x62566.

Meanwhile, the good old days of $1.50 per day at the Kezar parking lot are over. A new city vendor has taken over and started the following new rates June 1: 0-1 hrs., $.50; 1-2 hrs., $1; 2-3 hrs., $1.50; 3-4 hrs., $2; 4-5 hrs., $2.75; 5-6 hrs., $3.50; 6-7 hrs., $4.25; 7-24 hrs., $5.

A limited number of parking permits are available on a first-come, first-serve basis for $100 per month. Current permit holders may renew theirs at the new rate.

There is a reduced monthly permit parking rate for residents who live within three blocks of Kezar. For further information call the City Parking Company at 558-9147.

The UCSF Police Security Shuttle will continue to operate between Moffitt Circle and the Kezar lot weekdays 5 to 8:30 a.m. and 5 to 9 p.m.

For further information on any of the above call x62566.

UCSF at International AIDS Meeting

UCSF researchers made some 70 presentations, including 22 out of 250 major oral sessions, at the Third International Conference on AIDS, held June 1-5 in Washington, D.C.

UCSF specialists from various disciplines who made oral presentations included Jay Levy, Lydia Temoshok, Lawrence D. Kaplan, Harry Hollander, Ralph J. Diclemente, Richard E. Chaisson, Stephen Hulley, Michael Busch, Girish Vyas, Ileana Medina, Rita Fahrner, Molly Cooke, John F. Krowka, Marion A. Koerper, Dennis Osmond, Thomas Coates, Susan Crowe and Christopher Walker. Coates and Paul Volberding also chaired two sessions.

Psychiatry Holds Graduation June 18

Leonard S. Zegans, MD, professor of psychiatry and director of education, LPPI, will be the master of ceremonies at the Department of Psychiatry's graduation on Thursday, June 18, at 3 p.m. in Cole Hall.

Thirty-two students will receive their diplomas, including 17 residents in psychiatry, 4 fellows in child psychiatry, 4 doctoral students in human development and aging and 7 doctoral students in clinical psychology.

The LPPI/UCSF Alumni Faculty Association Interdisciplinary Achievement Awards will be given by Chris Hatcher, PhD, clinical professor of medical psychiatry, to two individuals.

Graduates and guests are invited to attend a reception at the Faculty/Alumni House following the ceremony.

UCSF Council News

All non-represented employees are invited to attend the June meeting of the UCSF Council on Wednesday, June 10, from noon to 2 p.m. in HSW 301. This is an extremely important meeting because the 1987/88 executive board members will be selected. Representatives from all classifications, including staff research associates, analysts, engineers, MSOs and many others will be sought as planning for a busy, new year begins.

Campus Snags 3 Golds, 3 Silvers in CASE National Competition

UCSF walked away with six major awards in the Council for the Advancement and Support of Education (CASE) annual competition in the fields of university communications and institutional advancement.

The Department of News & Public Information Services took a gold in the new prestigious category of "Magazine Design of the Decade" for the *UCSF Magazine*, designed by Henry Wachs and edited by Michela Reichman and Jeffrey Miller. The October 1986 issue of the *UCSF Magazine* stole a silver for "Imaginative Publication Ideas."

Not to be outdone, the Alumni Affairs Office scooped up three awards for *Alumni News*, including two golds—for "Periodicals Improvement" and "Tabloid Publishing Program" and a silver for "Cover Nameplate and Design." Alumni Affairs took yet another silver in the "Special Programs/Publications" category for our recent Founders Day brochures and invitations. The Alumni News and Founders Day materials were edited by Nancy Cutler and designed by Carol Kummer of the Publications Department.

In another awards competition, the Annual Giving Department, under the direction of Susan Jacobson, received a certificate of merit from the Art Directors of Los Angeles for the new letterhead on our annual funds stationery. The design was by Michael Patrick Cronan.

Toland Closed

If you arrive at Toland Hall to find a sign directing you to another location, here's why: A couple of weeks ago workers discovered a hazardous condition in the walls of the top story above the hall, and it was determined the safety of those below was at stake. Thus, the hall was closed immediately. They expect to be finished with repairs about mid-July; however, events through mid-August have been relocated. If you have questions on new locations, call scheduling, x64436.

Benefits

Consider the Tier Two Retirement Option But Do It *Very* Carefully

Once you join Tier Two, your decision is irrevocable!

What is this new option?

If you have been an active Basic Retirement Plan (UCRS) member for at least six months, you can elect Tier Two and stop making monthly contributions toward retirement. The consequence is that when the time comes to claim your retirement benefits, they will be significantly lower than if you remained a member of the basic UCRS plan.

Why would anyone elect Tier Two?

The length of employment required to become eligible for retirement benefits is five years. If you *know* you will not be working here five years, you'll probably want to consider this option. Just remember — many, many long-term employees started out with no expectation of sticking around for a career.

The Tier Two option goes into effect July 1, 1987. If you're interested in more information, look for the flyer being mailed to your home by the Office of the President. Or attend one of the following sessions offered by our Benefits Office:

- Wednesday, June 17, HSW 303, noon to 1 p.m.
- Thursday, June 18, HSW 302, noon to 1 p.m.
- Monday, June 22, HSW 302, noon to 1 p.m.
- Tuesday, July 14, HSW 302, noon to 1 p.m.
- Tuesday, July 21, HSW 302, noon to 1 p.m.

Dates of meetings at CED and SFGH are not yet confirmed, but if you work at either of these locations, be sure to watch for announcements. There is no deadline for exercising your Tier Two option; thus, Tier Two meetings will be held periodically throughout the year.

Range Adjustment Increase July 1? Yes

You may have read in the last issue of *Newsbreak* that pending approval by the legislature, UC employees would receive a 3% range adjustment increase July 1, 1987 — instead of January 1, 1988, as anticipated earlier. The allocation of funds *was* approved, and the range adjustment will come through for most non-represented employee classifications at UCSF. Exceptions: (1) hospital employees (the amount of the July 1 range adjustment will vary based on labor market considerations); and (2) MSO merit-based program employees, although the minimums and maximums for the MSO ranges will be adjusted upward 3% on July 1, 1987.

Have You Received Your A&PS Letter?

By now, all potential A&PS (administrative and professional staff) program employees should have received a letter in their campus mail outlining the revised status of the program. If you did not, call x61298.

You'll notice the reference to the abundance of intelligent, thoughtful input provided by employees to date. You'll also notice that toward the end of the letter, Assistant Vice Chancellor Chick Francis writes "We intend to depend quite heavily on the involvement of the expanded A&PS Committee to ensure that affected employees are involved as these programs are revised or developed."

This committee is now in the process of being expanded. The names of your A&PS liaisons will be made public at the earliest possible date.

How Are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of April 30):

- *Accumulation Unit Values*
  Equity Fund: $52.610 (26.99%)*
  Bond Fund: $30.224 (4.32%)*
- Monthly Factors:
  Savings Fund: .007138 (8.91%)**
  Money Market Fund: .005267 (6.51)**
  GIC Fund: .007578 (9.48)%**

*Percentages represent total percentage increase over previous 12-month period.

**Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

How Do the Plans Cover AIDS Testing?

- **Prudential, Kaiser and Heals:** Self-referred screenings are not covered. For coverage, diagnostic procedures require physician referral.
- **HealthAmerica and HealthNet:** Self-referral covered if member falls into the CDC/Surgeon General high risk group(s). Otherwise, diagnostic procedures require physician referral for coverage.

If you have further questions on coverage, the best thing to do is contact your individual health plan. If you're looking for further resources, here are some important ones:

San Francisco AIDS Foundation: 864-4376
AIDS Hotline: 863-2437
City Clinic (drop-in screening clinic), 357-7th Street, 864-8100
Health Center #1 (screening by appointment), 558-3905
SFGH AIDS Clinic (by appointment), 821-8830
UCSF AIDS Health Project: x66430

A New Process for Selecting Special Performance Award Recipients

In response to many comments from staff and management, the process for selecting Special Service Award recipients within the Med Center has been revamped.

This is a campuswide award; it goes to employees who display "meritorious performance," and it carries a $750 cash prize. The campus criteria for eligibility are that you (1) must have been at the maximum of the salary range for your current classification for at least one year, (2) have at least a "More Than Satisfactory" overall performance evaluation rating on your last evaluation, and (3) your last evaluation must have been completed within the past year.

Many Med Center employees have said that even though they read the above criteria, they still have not understood why one person got the award and another didn't. Thus, the Managers Advisory Group (MAG) and a special steering committee have come up with some changes to clarify the selection process in the Medical Center, to be used in the 1987 program currently underway.

The two most important changes in the process are (1) the identification of specific performance criteria — to give you a better idea of exactly *what* is being recognized, and (2) the delegation of the selection process to individual department management, instead of a centralized committee.

The campus guidelines listed above still apply, but the additional Med Center criteria is as follows:

An evaluation of overall work performance takes into consideration (1) technical competence, (2) communication/interpersonal skills, (3) initiative and creativity, (4) teamwork, and (5) attendance.

In addition to the supervisor's evaluation, letters of commendation, peer review and feedback from colleagues and other departments also are issues for consideration.

Except for the campus requirement of a minimum of one year at current classification maximum salary range, length of service is not counted. You can receive the award more than once with approval of the associate director as long as you did not receive the same award in the prior year, or the Chancellor's Award for Exceptional Service in the prior two years.

The nominations will be made by supervisors/head nurses; and the selection process will take place within the management or director groups of each department, depending on the size or structure of the area. The presentation of the awards also will take place at the department level, following which each recipient will be acknowledged at an awards ceremony hosted by Administration.

This pretty much covers the changes, but if you have questions, be sure to bring them to your staff meeting. Also, flyers outlining the new process have been distributed to all departments. Ask for one.

The First Sophie Robinson Award Winners

Mikkel Aaland

Li Yu and Karen Bernthal, both nurses on 11 Long, visited and provided support for patients and/or their family members following discharge, and thus became candidates and ultimately the first recipients of the Sophie Robinson Award.

It came as a complete surprise to both nurses. "I didn't even know there was such an award," says Karen, who was nominated by an anonymous source. "It's not unusual for staff to visit patients. A lot of us do it. In fact, I can think of several other staff members who deserve this award as much or more than I do."

Both recipients received a check for $50 and a certificate during a special awards ceremony attended, as Karen describes, "by all the head people."

The concept for the award began with a patient named Sophie Robinson. Following her discharge, several nurses visited her, which Mrs. Robinson and her husband, former medical staff president Saul Robinson, found very helpful and comforting. When Mrs. Robinson died, her husband requested that memorial gifts be designated for a fund that would acknowledge UCSF nurses who volunteer their time visiting patients after discharge from the hospital.

Mary McCollow, 11 Long head nurse, nominated Li for her support of the family of a 25-year-old leukemia patient who died two years ago. "The family, particularly the mother, has had a most difficult time dealing with this loss," says Mary in her letter. "Li has made several home visits and takes Mrs. Woo out for dinner every few months. Li has put a lot of effort into helping this family accept their loss."

Karen was nominated for her support of a cancer patient who lives in Pittsburg, California. The patient was feeling anxious prior to her readmission to the hospital for a bone marrow transplant, so Karen made the trip to visit her and provide encouragement.

You'll be interested to know that the Sophie Robinson Award will be presented to two nurses twice a year, each August and February from this point forward. Some specific criteria have been set up for participation in the home visiting program, so better check with your head nurse for the particulars.

Congratulations, Vicky Murdoch — You've Endured Neurosurgery for 10 Years

"We're very proud of her," says Neurosurgery MSO Kathleen Smith of Vicky Murdoch (front left). We're also proud of Michele (next to Vicky), but she hasn't endured all of us as long."

The occasion here is a surprise party for Vicky's 10th anniversary in Neurosurgery. Vicky and Michele (Maltby), who are both blind, are transcriptionists in the department. Co-celebrants include Shirley Hamilton (directly behind Michele and Vicky) and (back row, left to right) Lydia Moskwin, Kathleen, Alaina Obst, Frances Cotter, Tanya Moskwin, Katherine Moskwin, Rochelle Olson and Noreen Romero.

It turns out that it's more than the work-a-day world that Vicky has endured these 10 years. She's a great sport when it comes to going along on department outings. She's been canoeing, camping and white-water rafting with her colleagues. And coming up this summer, they've got a sea kayaking trip in mind.

Interested in Attending the June 12 "Meet the Director"? Here's How

First, check the following list to see if your department is among those designated to send a representative to the "Meet the Director" meeting on Friday, June 12, from 2 to 3 p.m. in Room M 169. If yes, tell your supervisor you would like to be the representative from your department. If no, then call Gemma Rieser at x64846 to see if one of the eight additional slots is available. Whether you attend or not, you're welcome to submit items of general interest for discussion. Jot it down and send it to: Director Bill Kerr, attention "Meet the Director," Box 0208, M 181.

Departments for June 12:

- Outpatient Pharmacy
- Building management
- Radiology
- Materiel Services

Erma Woods: How to Make a Patient's Day (or) A Cut Above the Normal Call of Duty

The other day, an elderly patient visited the ACC's arthritis clinic after at least a year's absence. Her condition had kept her bedridden and unable to do much in the way of grooming. She expressed particular embarrassment over the state of her hair, which was almost impossible for her to keep up herself.

Erma Woods, a nursing assistant with a big heart — who also happened to be a hairdresser for 20 years before joining the clinic staff — immediately sized up the situation. She rounded up the best pair of scissors she could find and some oversized plastic paper clips, and set to work giving our forlorn patient a makeover.

How did it turn out? "Terrific," says head nurse Nancy Gordon. "The patient was thrilled. In fact, she may have arrived here upset and unhappy, but she left on cloud nine. That haircut definitely was the highlight of her visit."

It turns out that this particular patient is not the only recipient of Erma's good will and haircutting skill. If you look for Erma during her time off, you might find her at Laguna Honda Hospital, where she volunteers her time giving haircuts to patients.

Med Center Perfect Attendance Program — Two Months Down, Just One to Go

If you've had perfect attendance during the past two months, you're well on your way to being included in the first set of Perfect Attendance honorees. The first leg of the program began April 5 and ends July 11.

If you're in the dark about this new program, here's what we're talking about: Initiated by the Employee Recognition Committee (an outgrowth of the original employee task force), the program has been set up to recognize Med Center employees who maintain perfect attendance.

After each payroll quarter, all Med Center employees who haven't taken any sick leave or unpaid leave time during that period will be listed on a perfect attendance honor roll, which will be distributed for posting to all departments.

From this list, there will be a drawing to choose 50 names. Each of these 50 people will win a gift certificate for $20, redeemable at several campus locations. Simple as that. If you have questions, ask your supervisor, or call x63006.

Resource Center (Cont'd.)

being) will assist you as soon as possible.

Beside making existing materials available, another primary function of the committee is to coordinate and assist in the development of new materials. If your unit is interested in developing new patient material, check with your supervisor for the committee liaison assigned to your department. This person will (1) tell you whether similar or identical material already exists, (2) hook you up with people who can serve as resources in content development, and (3) help you with the format.

The format is important. Part of the committee's goal is to establish a uniform format for all material produced internally. Thus, if your department has existing materials that do not fit the format (guidelines are available through your liaison), be sure to submit your material to the committee, again, via your liaison.

If you have questions on any part of this, you can check with your committee liaison; or call Maribeth at beeper 171; or call the Resource Center during the open hours, x68018.

Where's the Stairs? Behind Long Hospital

Mikkel Aaland

Liz Terra, Dick Dixon and Merrill Johnston know where the stairs are.

The local stairwatchers are worried that the newly opened staircase at the back of Long Hospital is not being utilized.

This staircase, which is right outside the door adjacent to the Long elevators, was formerly reserved for emergency use. However, it has been opened up for general use, with the high hopes that an extra staircase would help alleviate the elevator congestion.

Don't worry! An alarm won't go off if you open the door. Just walk right on out the door, and help yourself to two flights up or three flights down. That, if you remember, is the recommended rule of thumb for using the stairs.

Anything New in the Medical Center? Check It Out

New Gift Shop Opens June 22

Mikkel Aaland

Key figures in the new shop: (counterclockwise from left center) Marianne Caramanica, Leona Hansen-Nealey, Marty McGrew from the Fashion Institute of Design and Merchandising, volunteers Sid and Millie Gilchrist (and the big elephant, grand prize in the drawing.) We have the Fashion Institute to thank for their major role in planning the decor and other facets of the new shop. All their work has been donated.

On Monday, June 22, the new gift shop in the Moffitt lobby will open with four times the space, a new name, loads of hoopla — and you're invited.

Stop by the new "Beartique" (winning name in the name-the-gift-shop contest held last year), sample some free chocolates, check out the new champagne beige and rose decor, meet new assistant supervisor Marianne Caramanica and long-time manager Tillie Hogan, check out all the new lines of merchandise — and get this: For every purchase you make of $10 or more during the opening days, you'll be eligible for a drawing for some great prizes.

For those who love a bargain, be sure to stop by the old gift shop right away. Practically everything is on sale, including slippers, hose, slips, lingerie, cosmetics, toys, puzzles and stationery. And don't miss out on the "Last Chance Moving Sale" on Monday, June 15. That's when you'll really find the bargains!

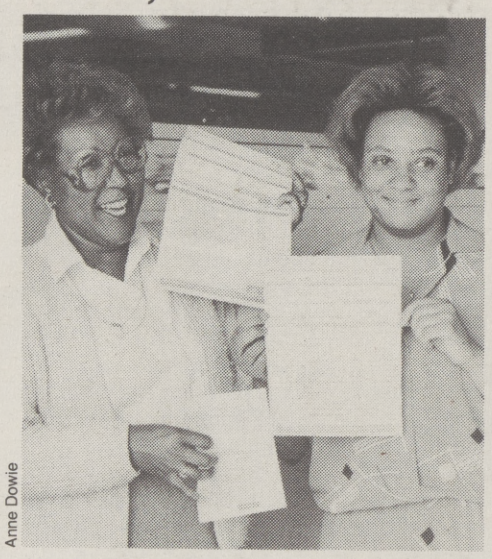

"Collections" Has New Name, New Bills

The section of Patient Accounts that issues the bills — formerly known as "Collections" — is now called "Patient Account Services."

They also have brand new statements. A product of the CHARMS project, the colorful new format — blue for inpatients, green for outpatients — has been designed to provide more information and generally be more easily understood by the patient.

Actually, the new statements were the harbinger of the name change.

"If a major purpose of the new statements was to create a better rapport with patients, it didn't make sense to have a department named 'Collections' issuing these bills and working with patients," says Patient Accounts manager Rufus Battles. "It was misleading. When patients heard 'Collections', it suggested they were behind in their payments. In truth, the actual collections function is handled by an outside agency, not this department. 'Patient Account Services' is a much more accurate — and friendly — name."

Anne Dowie

Here's a little quiz provided by Patient Accounts Services supervisors Linda Perkins-McGee and Sandra Range: Which two bills are the new ones? You're right. The top two.

New for Adult Patients: Animal Visitors

Guinea pigs make fine bedfellows. So do dogs, for that matter. That seemed to be the consensus among patients on 7 Long, who were having a great time the other afternoon visiting with animals from the San Francisco SPCA's Pet Therapy Program.

No stranger to Pediatrics, the pet therapy program *is* something new for an adult ward. In fact, they're doing a pilot run on 7 Long, where once a month the SPCA will be bringing in various animals which, in addition to dogs and guinea pigs, might include reptiles, birds, a rooster, or even a chinchilla.

"Good idea," says patient Georgia Stover of Oakley. "I think it's great for the kids. But adults love animals, too." With Georgia in the photo are Schnauzer the guinea pig, Mavis the dog, Chris Shaheen from the SF SPCA and 7 Long staff members Debra Fila, Jennifer Dickman and Craig Sheffer.

Patient Education Resource Center Opens

Moffitt 167-A is a very small room with a big purpose: It's the new Patient Education Resource Center, a clearinghouse for all patient education materials used in the Med Center.

This is a terrific resource. It ties together and makes available to everybody the hundreds upon hundreds of educational pamphlets and flyers floating around the Med Center. The moving force behind this program, the Patient Education Committee, headed by clinical nurse specialist Maribeth Inturrisi, has compiled a complete computerized index of these materials.

Take a look at this index — it's available in your nursing unit. You'll find page after page of listings on just about any subject you could desire for patient instruction — obstetrics, child care, nutrition, diabetes, arthritis, cancer, gastrointestinal issues, sexually transmitted diseases, mental health, you name it.

The Center currently is staffed with volunteers during the morning hours, Monday through Wednesday, with the intention of expanding the staffing to 9 a.m. to 4 p.m., Monday through Friday. During their open hours, you can call the Center at x68018 and request your material. The volunteer will locate the material, bring it to your department and assist you as needed. The Center also maintains audiovisual materials, including one VCR for borrowing and a small library of videotapes (also to be expanded).

When the volunteers are not there, you can leave a message on the answering machine and someone (probably Maribeth for the time

(continued on page 7)

Mikkel Aaland

Three of the four groups collaborating on the new Center are represented here: Maribeth Inturrisi, committee chair; to her left and right, respectively, volunteers Sandra Solomon and Theresa Frankel; and to Sandra's left is administration's Nancy Vega, whose fingers have been flying word processing the educational material. The fourth contributing faction is the Auxiliary, which has provided funding for the program.

What Happened to the Annual Nurses' Run?

If you're wondering why May came and went and you never heard anything about the Nurse's Run — or the Chancellor's Cup Run, for that matter — here's why:

Both of these events, usually held somewhere around this time of year, will be combined into one big run on Saturday, October 17. The reason for the switch? The run will be the prelude for another big event on that day — the Med Center employee picnic in Golden Gate Park. Stay tuned for lots more news as the date approaches.

Mikkel Aaland

And There You Are... Happy Landing on a Chocolate Bar

On the last day of National Hospital Week about 700 Med Center employees took a trip on the Good Ship Lollipop to the Golden Gate Room. Above, you see them arriving in time to see the sugar bowl do a tootsie roll and the big bad devil's food cake. But did anyone remember...If you eat too much, ooh, ooh, you'll awake with a tummy ache. Are you kidding? Of course no one remembered.
